SCIENCE & DISCOVERY

Does Nature have its own plan of fighting plastic pollution?

INVISIBLE HOPE

2022

FORMAT: documentary (HD)

GENRE: green & global threats, social, science, nature

RUN TIME: 55'

To overcome a problem, you must first notice it...

Sometimes we do not even suspect how much garbage we produce. Each day it is collected by special service and taken away in an unknown direction. The city is clean and people are ok with it.

The film explores the most urgent topic of plastic pollution. From Brussels to Baikal lake, and Indian Dehli, eco-activists invent unusual new ways of recycling to make use of the plastic garbage – the film shows their inventions and researches the attitude towards waste in different countries, leading viewers to the main question: did you know that the Earth has its own plan of protection?

Scientists have discovered that some bacteria are able to recycle plastic and decompose it into harmless components. But will our planet be able to cope with big volumes? What can be done to make this naturally-occurring factory work faster?

RUN TIME: 4 x 52'

Once the legendary vessel Akademik Mstislav Keldysh became widely known thanks to James Cameron's "Titanic", and now it is heading towards the North Pole for the one-of-a-kind risky expedition. Unique underwater shooting equipment will be out for scientific and research job. A team of brave scientists from Russia is looking for answers to the troubling questions – will our planet be suffering of warming and fast ice melting in Arctic?

For 42 days the team will be collecting samples of water, soil and bacteria. Some of the materials will be examined directly on board and technological institutions on land will pick up the expertise in order to establish inferences. In Arctic waters the crew will face many obstacles – from crash of the to collision with bears, but nothing will stop them from making discoveries.

THE GREAT NORTH WAY

4K

Available in 4K

2019

FORMAT: documentary (4K, HD)

GENRE: history, culture, travel

RUN TIME: 50' / 75'

The film-challenge, the film-discovery!
Featured by Fyodor Konyukhov.

An extreme and beautiful route in the Russian Arctic. A path of ten thousand kilometers through the harsh lands of the North, getting acquainted with the local nature, history and indigenous peoples. For the first time in the modern history the legendary route of Semyon Dezhnev, the great Russian Explorer of Northern and Eastern Siberia of the 17th century, was explored and filmed in the unique visual diary of hard-to-reach places, that nobody had seen before.

Four years of filming in harsh conditions culminated in the creation of an impressive documentary called "The Great North Way". The most picturesque and inaccessible places in Russia, from Arkhangelsk to Chukotka, are getting closer thanks to the film. Spectators also turn into discoverers, catching up the spirit of research that pushes people to risk and overcoming themselves, from century to century. This documentary explores not only the issues of the Age of Discovery, but human possibilities as well.

PEOPLE & PLACES

NORTHERN SPACEPORT:
THE STORY OF

PLESETSK

4K

Available
in 4K

2018

FORMAT: documentary (4K, HD)

GENRE: discovery, science, space

RUN TIME: 49'

The pride of Soviet engineers, a secret project hidden in the impenetrable taiga, among swamps and fogs - for a long time the Plesetsk cosmodrome was a serious issue in the confrontation between the USSR and the USA. From here, Soviet missiles could reach nearly anywhere. Today the Plesetsk, which has just celebrated its 60th anniversary, is a unique launching complex that provides for both Russian defense and scientific space programs. The history of the cosmodrome is the history of selfless people who make space exploration possible.

We will go to the extreme north, to the very heart of the taiga, to live one day at the cosmodrome with its inhabitants and witness the launch of a real rocket.

DEPTH HUNTERS

On the way
down the deepest
cave on Earth

2022

FORMAT: documentary (HD)

GENRE: travel, nature,

science, discovery

RUN TIME: 52'

First of all, descent into the cave is about overcoming obstacles, the manifestation of true character and willpower. This is a special challenge. And, nevertheless, our heroes rush to overcome difficulties voluntarily. With bated breath, happiness, fear and enthusiasm.

This is the only way how world discoveries occur. And this is exactly what happened with the team of Demidov.

Pavel Demidov and his team of Moscow extreme cavers were discoverers of the deepest secrets of the planet. They set a new world record: the Veryovkin cave in Abkhazia, conquered by them, turned out to be the deepest on the planet. Each time, researchers are not sure that they will be able to come back. But, despite the dangerous floods, they are preparing for the next descent, collecting orders and wishes from scientists from different countries in order to return to them with samples of unique stalagmites and unknown biological species.

SPACE DOGS

4K

Available in 4K

2017

FORMAT: documentary (4K, HD)

GENRE: discovery, history

RUN TIME: 48'

Little dogs in the big space ... They were launched into weightlessness one after another. It was the only way to discover what problems and complexities the one who flies next will face - the human. Dozens of dog lives were sacrificed to the science and safety of people.

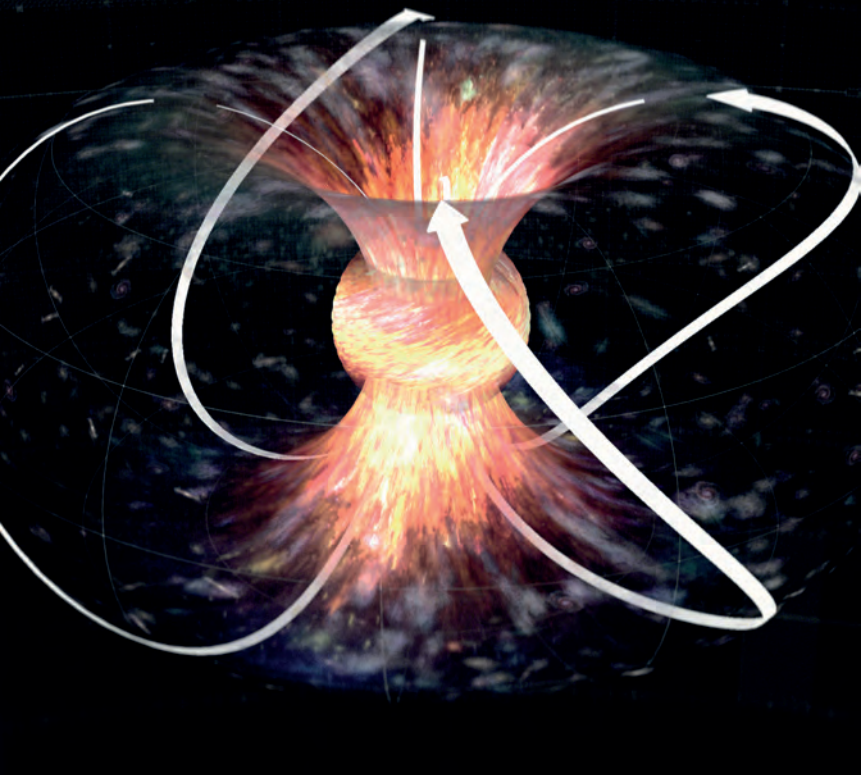

The pioneers of the Soviet space, the first to fly around our planet, Belka and Strelka, became symbols of the breakthrough beyond the limits of gravity. Colossal work preceded their flight.

Why were these dogs chosen for the experiments, how were they trained for flights, what was waiting for those who could return alive?

FORMAT: TV-show (HD)

GENRE: war, history, current affairs

NUMBER OF EPISODES: 200 +

RUN TIME PER EPISODE: 38'

NEW SEASON AVAILABLE!

The project is about the most modern and promising engineering discoveries in the world of air, land and sea technologies.

In this state-of-the-art television show the charismatic journalist Alexey Egorov explore far and hidden equipment manufactories and live tests the newest types of technical designs. Together with him we will visit top secret factories and closed polygons, we will become participants in the most risky engineering experiments on land, sea and in the air.

MYSTERIES OF SPACE

Season 1

2017, Russia

FORMAT: documentary series (HD)

GENRE: space, science, history

RUN TIME: 21 x 45'

Season 2

2021, Russia

FORMAT: documentary series (HD)

GENRE: space, science, history

RUN TIME: 10 x 45'

The first season about the newest discoveries in the Universe and Earth's nature. Every day provides scientists with sensational discoveries which change our view of the world. Science is moving forward, but the Universe is asking many intriguing questions, the answers to which are yet to be found.

New facts force us to consider and re-evaluate our attitude to such age-old questions, like "Are we alone in the Universe?", "How did man come to be?", "How is the world around us organized?".

The second season brings 10 new theories and ideas from scientists and astronomers who search answers to the universe's myriad questions. Experts are trying to figure out some burning questions: about undisclosed mysterious planets (did you know that our Solar system has one more planet just near the Sun?), strange space colours (did you know that visual colours of space minerals, dust, planet surfaces are far from the ones we're used to see?), new projects about Mars exploration, etc.

Season 1

1. THE DARK SIDE OF THE MOON

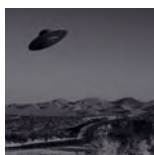

2. SPACE EUROPA

3. LIVING VENUS

4. MYSTERIES OF THE WATER

5. DANGEROUS SKY

6. THE GATES FOR THE GODS

7. HUNTING THE UFOs

8. UFO WRECKAGE

9. SPACE TECHNOLOGISTS

10. CREATORS OF THE UNIVERSE

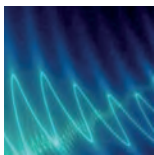

11. PIONEERS OF THE UNIVERSE

12. THE MIND BEYOND THE EARTH

13. THE MOON MATRIX

RUN TIME: 24 x 44'

Season 2

2021, Russia

FORMAT: documentary series (HD)

GENRE: science, history, investigation

RUN TIME: 12 x 45'

What is PSI intelligence? How did the humanity actually appear? What is common between karma and DNA? How does time flow? Why do we need bacteria? When will the Sun go out?

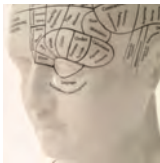

Answers to these and many other questions can be obtained **in the first season** of the popular science series "Incredible Science".

The second season reveals the most urgent and fabulous scientific discoveries: about terrifying pandemic of COVID-19 and its impact on our immune system, that has to face new possibilities and future challenges afterwards, about unbelievable advances in medicine regarding our brains, blood-type and even our dreams! Recently declassified files of famous scientist about his unknown inventions, as well as mysteries of atmosphere mutations – are explored in the fresh season of the "Incredible Science".

Season 1

1. BATTLE MENTALISTS

2. LEGALIZED PSEUDOSCIENCE

3. ALL PEOPLE ARE PIGS

4. UNSCIENTIFIC ROGUES

5. THE GENE OF FAILURE

6. ARCTIC GRASS TO THE WAISTBAND

7. NO TIME

8. HAP OF ABUNDANCE

9. THE END OF FOOD

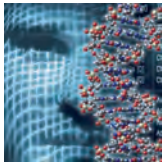

10. SECRETS OF CONSCIOUSNESS

11. WHAT DO YOU DRINK?

12. THE MYSTERY OF THE GIANTS

13. SECRETS OF GENETICS

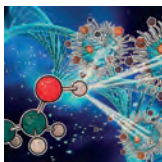

14. ROADS OF DEATH

15. WHAT DO YOU EAT?

HISTORY

URARTU

THE FORGOTTEN KINGDOM

4K

Available
in 4K

2019

FORMAT: docudrama (4K, HD)

GENRE: history

RUN TIME: 50'

In Bible, Urartu is referred to as the most ancient state on Earth – the Kingdom of Ararat. It was here, according to the Holy book, that the Noah's ark stopped, and it was here that humanity found its salvation. The inhabitants of Urartu, along with the Sumerians, had a developed culture, economy, astronomy and religious life...

According to the scientists' latest discoveries, the culture of Urartu was the most advanced in those days, and the art of architecture was unsurpassed throughout the ancient world. The main influence of Urartian culture, especially letters, fell on the Persian Empire of the Achaemenids, who fought Alexander the Great. Many elements of Urartian art can be seen in the architecture of ancient Greece.

Due to the lack of research, Urartu is probably one of the most mysterious and attractive states in the history of the ancient world. This documentary will help us recollect its beautiful history and get acquainted with its unique background.

THE GREAT *Exploration of Siberia*

FILM I: SIBERIA. NOMADS IN TIME

4K

Available
in 4K

2019

FORMAT: documentary (4K, HD)

GENRE: history, travel, nature

RUN TIME: 52'

Siberia. The "backbone" of Russia, full of amazing natural phenomena and historical paradoxes. Permafrost, snow and boundless taiga – this is what distinguishes Siberia from other places. "Black gold" and diamonds, the cleanest deep lake and ancient cities that grew up on the site of military settlements; streams that do not freeze at a 70-degree frost - the most incredible, inaccessible and paradoxical things are located on a vast territory called Siberia.

THE NOMADS IN TIME...

Now Siberia is considered to be the heart of Russia. However, many centuries ago it was just another unexplored territory. Only the most desperate folk felt strong enough to meet the unknown lands. Such as runaways and escaped robbers, who were to become faithful followers of the Russian state, forming a military order of the Cossacks, who explored the Siberian lands. The film is a tribute to the people brave at heart who did the impossible to settle in enigmatic and wild pagan lands of Siberia.

KISELYOV'S LIST

Unique campaign during the Holocaust

2020

FORMAT: docudrama (HD)

GENRE: history, war, bio

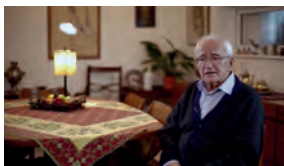

RUN TIME: 58'

Unknown story of a man who saved 218 Jewish people in 1942...

A story of the unique campaign that took place during the Holocaust in August 1942, when 270 Jewish people went on a mortal campaign. They had to cross the front line and go through the territory completely occupied by the Nazis. Go through to survive. Go through to save the lives of their children.

This group was headed by Nikolay Kiselyov. This mortal campaign lasted almost two months. 218 people reached their cherished goal. The youngest was a 1,5 y.o. girl.

Leon Rubin is one of the few children who survived. He did everything to immortalize the name of their saviour, to bring the terrible story of the struggle to his descendants. He comes back to Russia to honour the memory of partisan Kiselyov and find his mother's grave, who died in Russia after the campaign. Leon Rubin: "I did everything I had to. I want this to never happen again." Never again.

SHCHELKIN

2019

FORMAT: docudrama (HD)

GENRE: history, bio

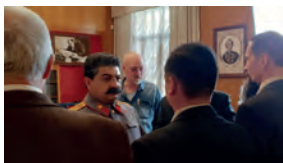

RUN TIME: 50'

Kirill Ivanovich Shchelkin is not well-known among the most honored scientists of the Soviet Union.

Indeed, few people have heard this name, while the names of Kurchatov, Sakharov and Korolev are known to the whole world. Meanwhile, Shchelkin was one of the main creators of atomic and hydrogen bombs, one of the founders of modern cosmonautics, three times a hero of Socialist labor, a man whom Igor Kurchatov called "The Godfather of the atomic bomb."

The scientific research of Shchelkin and his colleagues, without exaggeration, saved the world from the third world war and ensured the peaceful life not only in Russia, but for all the mankind.

An absorbing experience of historical eras to discover all details of former living in the Moscow Kremlin from the times when Kremlin walls as they now appear were built in 1495 up to the reign of Nicholas II, the last Russian Emperor, who was murdered in 1918.

For almost five centuries, the Moscow Kremlin has been a symbol of the Russian state, but also a residence for those who ruled Russia, and a symbol of tsar's power.

The project covers the period from the times of Prince Yury Dolgoruky, the founder of Moscow, when the Moscow Kremlin first appeared on the Borovitsky Hill, to the reign of Nicholas II. With large-scale historic reenactments and computer graphics, the viewers will be able to discover the most exciting facts from the history of the central point of the Russian state.

The Great Battle of STALINGRAD

2018

FORMAT: docuseries (HD)

GENRE: history, war

RUN TIME: 2 x 48'

Film I. No retreat

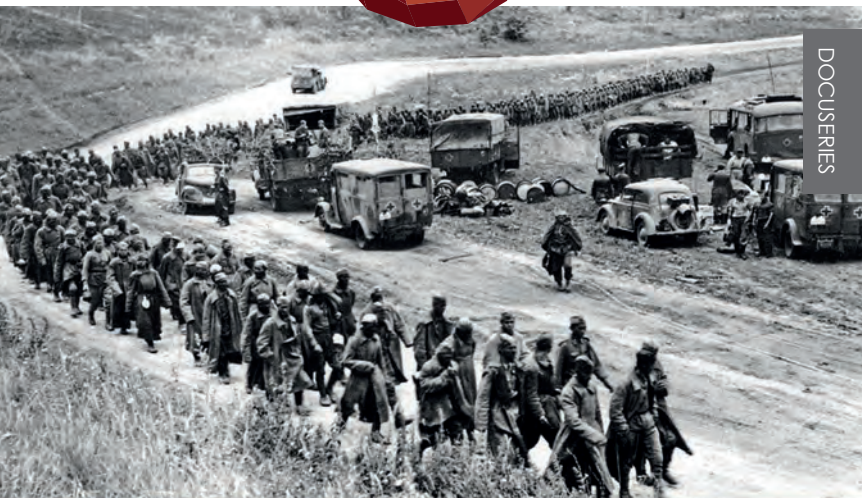

Film II. Uranus Attack

In 1942 Wehrmacht troops moved through the South of Soviet Union to Stalingrad. Stalin issues Order No. 227: not a step back.

The secret plan code-named "Uranus" let enveloping German troop of 320,000 men. The catastrophe at Stalingrad was inevitable. General Paulus asked Berlin to save German soldiers left alive, but Hitler denied capitulation.

We invite you to the historical journey to the heroic city of Stalingrad (now Volgograd) to remember on of the greatest battles of WWII.

The Great Battle of KURSK

2018

FORMAT: docuseries (HD)

GENRE: history, war

RUN TIME: 2 x 48'

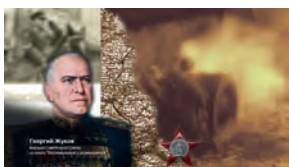

Film I. Kursk Bulge. Citadel
Film II. Operation "Rumyantsev"

After the defeat of the Wehrmacht troops at Stalingrad, Hitler craved revenge. He thought that "Kursk Bulge" would be the most suitable place for the defeat of the Red Army. In early April 1943 the command of the armed forces of the Third Reich began to prepare a strategic offensive operation, code-named "Citadel."

Troops of the Central Front under the command of Colonel-General Rokossovsky and Voronezh Front under General of the Army Nikolai Vatutin were attacked by 2000 airplanes and 2700 enemy tanks.

In July 1943, the second phase of the gigantic battle began. The Soviet military began the operation under the code name "Rumyantsev." Hitler lost 30 selected divisions in the Battle of Kursk.

Our two-part film tells the complete story of the battle that predetermined the outcome of the most terrible war of the 20th.

THE GREAT COMMANDERS

2020

FORMAT: docuseries (HD)

GENRE: history, bio, war

TIME: 16 x 26'

Sixteen men, sixteen heroes of both World Wars and of modern local conflicts. Each episode is a documentary research on their personalities, their strongest and weakest points. The great commanders - who were they? Natural geniuses in tactics and strategies, or selfmade people led by the duty to defend the homeland? What ruled them – strong will, “iron” self-discipline, or both?

LEGENDS OF THE *Crimea*

2015-2020

FORMAT: docuseries (HD)

GENRE: culture, travel, history

RUN TIME: 96 x 26'

Somewhere on the Black sea shores, covered with vineyards and hidden by high mountains, the story emerges, where old legends are still alive.

A fairytale of Golden Fleece, a shocking memory of great tragedies, an epic novel of cave towns and beautiful castles... It is all about the Crimea. After 2014, the situation with this peninsula was one of the most discussed topics in the world. But above any political aspects, the Crimea has a long and rich history, many beautiful places to see and lots of sights to visit.

We offer you a wide review of all the Crimean treasures, 96 episodes in HD produced and finished in 2015-2020, they can be shown as a series or separately.

Beautiful castles, amazing landscapes, the biggest historical mysteries and events - you will find it all in "Legends of the Crimea".

WILDLIFE

LAND OF BEARS

4K

Available in 4K

2017

FORMAT: documentary (4K, HD)

GENRE: history, discovery, travel

RUN TIME: 52'

Bear – a powerful and horrendous wild beast, a symbol of strength and might – now is under threat himself. Danger comes from poachers, who hunt for bear fur and bile, which is believed to heal. Danger comes from illegal hunting centers, enslaving baby animals for dog training. Yet a human becomes stronger not through a struggle or hunt – but... love. And care – for a bear. "Land of bears" is a film about the country, where love between a man and bear is mutual.

WATCH TRAILER

into the ARCTIC

Full-Length Documentary by Leonid Kruglov

COMING 2022

4K

Available
in 4K

2022

FORMAT: documentary (4K, HD)

GENRE: science, travel, nature,
history, discovery

Beautiful, spectacular shots, unique landscapes, stories of historical events, complex and dangerous adventures.

Endless landscapes of cosmic beauty... Pristine nature that tests human strength at any season. For several centuries Russian seafarers aspired to come here. Why were the spirited discoverers attracted by the harsh northern region? That is what the Arctic expedition of documentary filmmaker Leonid Kruglov will have to find out. Together with the scientists, the traveler will go to places that no film crew has reached yet. "Into the Arctic" is one of the most ambitious and daring research and cultural projects of modern Russia.

Many Russian expeditions went in search of "new lands in the Arctic", as well as the "great northern sea route". Some of them became legends, disappearing under mysterious circumstances. With the help of modern underwater, air and magnetometer technology, we will try to find them in the endless ice.

Anti-stress series

Date with nature

from the creators of
HOME 4K and
Wild Nature TV channels

2020-2021

FORMAT: series (UHD, HD)

GENRE: nature, wildlife

Season 01: 10 x 35'

Season 02: 10 x 40'

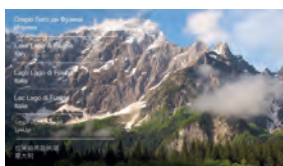

The anti-stress series stops the flow of disturbing obsessive thoughts and puts into a state of peace, integrity and fullness. The series is based on the video materials shot by the team of TV channels Wild Nature HD and Home 4K. Filming took place for 8 years in more than 350 locations around the world.

Season 1

is dedicated to unique natural phenomena, the beauty and diversity of nature at different times of the year: magnificent waterfalls, fascinating animal world, mysteries of winter and autumn, forests with singing birds, energy of the sea etc.

Season 2

invites viewers into a scenic journey through the natural corners of 10 different countries (from Italy, Kazakhstan, Kyrgyzstan, Slovenia, Thailand, France, Spain, Norway, Iceland and Sri Lanka) with their unique, incredible nature and unforgettable animal world. Only you, picturesque shots, light music and beautiful sounds of nature!

2016-2018

FORMAT: docuseries (HD)

GENRE: travel, discovery

RUN TIME: 67 x 20'

A fascinating program about travel, outdoor activities, extreme sport and tourism. An experienced traveler and host Andrey Kuzmin introduces amazing and interesting places of different countries (Armenia, Georgia, Kazakhstan and many others). His motto is: "Travel more, because the most interesting things are always waiting for us beyond the doorstep!"

The charismatic host travels by car, so viewers can get valuable information not only about the history and features of the places he visits, but also about how to arrange the car trip properly, get more impressions and reach the destination safely.

The host Andrey Kuzmin visits lost corners of wilderness and popular tourist spots, large cities and small villages:

- Lake Sarva, spring "Red Key", Kipun spring, reservoirs, caves.
- Beauty and legends of the Bashkir Trans-Urals, St. George Monastery.
- Travels in Karelia, Trans-Urals, across Kazakhstan, Georgia and Armenia.

CURRENT AFFAIRS

GOVERNMENT VS. BITCOIN. ADMIT ME IF YOU CAN

2018

GENRE: current affairs, finance

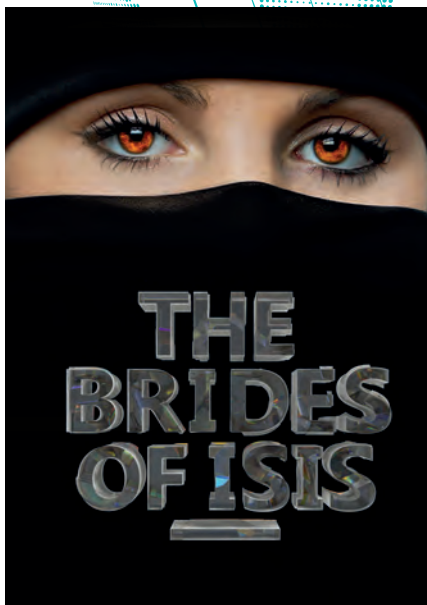

RUN TIME: 52'

The film about the relationships between the government in different countries and crypto currency, and perspectives of digital currency in the system of state economy. This film has an original revelation of a new theme through the analysis and comparison of attitude towards crypto economy and crypto currency.

The filming took place in Germany, Denmark, Finland, Sweden, Estonia and Russia.

CURRENT AFFAIRS

2016, Russia

FORMAT: documentary (HD)

GENRE: current affairs

RUN TIME: 52'

Several years ago, there was only one cause for concern at the Arab East - the terrorist organization Al-Qaeda. When the group called "Islamic State of Iraq" separated from it, many people thought that it was just a gang of insurgents who initiated local clashes with the civilian population in Syria.

But today, according to experts, it is a multi-million army. And while the world community is arguing about their sponsors, they have learned how to make money themselves. Their main source of their income is oil.

Recently they realized that there is another profitable commodity.

Women.

All stories are told by young women who managed to escape. We would like TV-viewers worldwide, especially young girls, to hear stories of former captives. And maybe, if at least one girl watches this film and refuses the idea of joining her "beloved one" in Syria and becoming a wife of a terrorist, then we have done our job very well.

2016, Russia

FORMAT: documentary (HD)

GENRE: current affairs

RUN TIME: 52'

It is an investigation film made by the international group of journalists from Russia, Britain, France and Syria. What is the Islamic State of Iraq and the Levant, or ISIS? The group traveled to Syria, to the cities that escaped from participating in the Islamic State. We found people who were abducted and taken to ISIS and were lucky to return. And those who had nowhere to run, and who saw how the Islamic state was built. This is a collection of dramatic stories of ordinary Syrians.
